Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.

A PROCESS MIND

Paperback. Book Condition: New. Paperback. 201 pages. This is a reflection on 93 years of life where each day was meant to count, just to fill the obligation that comes with life. Reflection discovered a mental process, not before recognized, that has made possible significant advances in medicine, quietly for the most part, and likely to have greater impacts with time. The author tells his story, weaving in anecdotal material, all having influences on final results. He discovers his mind to be that of Process, forced in that direction by his inability to Quickly Memorize. He was known in medical school as the guy who asks the dumb questions. As things turn out, the dumb questions led to remarkable and lasting answers. He makes the most of Do It Now as the driving engine, but in the end, it is Being effective that makes the difference. This story is meant to encourage parents and teachers, and finally the young, themselves, to recognize and appreciate their Process potentials, not allowing their Quick Memory talents to dominate and stultify Process. At 93, the Process Mind cannot be stopped as he discovers a way to, with simplicity, alter a cars outside rear view mirrors, eliminating the head turn, making for driving safety as eyes remain on the road ahead in keeping with his lifetime determination to make critical the long-term results of short-term decisions.
