# Metagame

By Sam Landstrom

Amazon Encore, United States, 2010. Paperback. Book Condition: New. 203 x 137 mm. Language: English . Brand New Book. In sci-fi author Sam Landstrom's MetaGame, he creates a believable but disturbing world with fewer than six degrees of separation. In fact, every single person, product, pastime, and proclivity humans take part in is interconnected. Life is the Game ? and winners never die. In the Game, points amount to currency and top scorers are eligible for immortality. A mysterious, unifying force, the OverSoul, calls the shots, and an individual player's health contract can be indefinitely extended ? and with the offer of a permanent twenty-year-old's body and health, it's with fanaticism that gamers play the Game. D Light is one of the best players in his family and will do anything to win, even kill. When he's invited to a MetaGame ? an exclusive, high-stakes competition ? he jumps at the chance. But after the first quest, D Light's overly ambitious ways brand him a renegade. With a warped sense of free will that is needed to prevail, D Light must either kill someone he's grown to love ? or lose everything.
